

Specification Sheet

Corrosive Cabinet - 250L

Product Code: 04-1074

Product Features

One of New Zealand's most trusted and popular cabinets, these provide safe storage for the Class 8 corrosives used in industries including; cleaning, food processing, healthcare, hospitality and agriculture.

The key to its success is the combination of sturdy construction and fit-for-purpose flexibility. Shelf configuration means a variety of sizes of corrosives can be stored, making the most of space without compromising security. PVC trays sitting beneath the products add an extra layer of protection to the fully bonded cabinets. Vents can be connected to external ventilation systems, if required.

Additional Shelf: 04-1067P

Wall Bracket: 04-10613
