## Agrichemical Cabinet - 250L

Product Code: 04-1146

### Product Features

The modern, compliant, workable solution to storing agricultural chemicals every farm should have. Full stop. No exceptions.

Weatherproof, vermin proof, and tamper proof it protects farmers from theft, misuse, and worse. And it can be used in sheds or outdoors, just so long as you stick to the rules about not locating it near waterways, boundaries, sleepouts etc. Common sense, really, but it pays to check.

The cabinet is tough, the design is great, and the superior ventilation is especially good news for anyone who can remember opening an old-school ag. chem. storage cupboard!

### Features

- Forkliftable (when empty)
- Two heavy duty, adjustable, perforated shelves (plus base)
- Fully bunded – because our rural environment is worth protecting
- Doors with 180° hinging to provide easy access
