

Specification Sheet

Organic Peroxide Cabinet - 100L

Product Code: 04-1301

Product Features

A staple of the plastics and rubber industries, Class 5.2 organic peroxides are highly unstable. They need to be stored well away from processing and handling areas, and even further from heat sources and incompatible materials. Another tip – storing them near a door is not a good idea, as they could cut-off the exit in an emergency.

On the positive side, this Chemshed cabinet is specifically designed and engineered to protect staff and property against explosive reactions by minimising friction, heat and chemical cross contamination.

Double doors provide easy access and the under bench configuration keeps the cabinet away from the sun and out of harm's way.

Additional Shelf: 04-1065P

Wall Bracket: 04-10613

Features

- Sized for medium-sized organic peroxide users
- Double, lockable, self-closing, doors ensure the risks are kept to a minimum
- One adjustable shelf (plus base)
- Designed for performance and durability

Specifications

- Supplied with Class 5.2 decals
- Built to comply with the requirements of AS2714-2008
- Sump capacity: 67L
- Weight: 65kgs
- Internal dimensions: 553 x 838 x 535mm (h,w,d)
- External dimensions: 800 x 920 x 615mm (h,w,d)
