

# Specification Sheet

## Absorbent W - Oil Only

Product Codes: 12-1020

### Product Features

More eco-friendly than hemp sandals, this unique and highly efficient oil absorbent is made from reclaimed pulp from the paper manufacturing process.

Ideal for oil spills on water or oil spills in a wet environment, the organic particulate contains and controls hydrocarbon spills, while repelling water. Absorbent W floats on water and selectively absorb oils immediately on contact.

Easy to deploy and retrieve it is a valuable part of any oil spill arsenal.

### Features

- 100% organic, environmentally friendly
- Non-toxic and biodegradable
- Incinerable at low temperatures
- Rapid and reliable absorption

### Specifications

- 60L Bag
- Absorbs up to 30L per bag
- Loose fill
