

Specification Sheet

Sharps Spill Kit

Product Code: 13-2003

Product Features

No-one wants to see used syringes or needles lying around the place. Aside from moral concerns, it's down right dangerous for children and the public.

For those charged with the responsibility for the safety and clean-up of areas including; school grounds, parks, play areas and pools, this portable kit provides a good solution. It allows syringes and needles to be safely disposed of while protecting the responder.

It's not something anyone wants to be doing. But it's worth it. And to everyone who does; thank you.

Single use only.
