

Hazero Premium Spill Kit - General Purpose - 200L

Product Code: 13-1090

Product Features

Even the best laid plans and most robust processes of medium to large businesses can have the skids put under them by a spill. Which is why these high quality, generalist response kits need to be on-site. (They even come with a handy location sign to maximise awareness.)

Whatever the contaminant, these state-of-the-art kits can handle it. From stopping leaks at source to intercepting wanna-be getaway streams of almost anything, and cleaning up safely and professionally after.

They protect people and the environment from harm, and safeguard businesses from reputational damage and costs caused by injuries, fines, and down time. Every large workshop, food processing plant, or transport depot worth its salt should have at least one.
