

Specification Sheet

Spill Deck - 2 Drum

Product Code: 01-1073

Product Features

Manufactured in 100% polyethylene this sturdy deck has a low profile design for easy access. Having said that, we'd recommend pairing it with our Controlco Drum Trolley and Controlco Spill Deck Ramp for the sake of good back health.

Think outside the two-drum configuration and use for multiple sized smaller containers or clip together with other Spill Decks for a larger footprint. Special tools and hardware to connect Spill Decks is included with each system!

A generous, easy to clean sump is combined with a non-skid grate to prevent slips, spills, and contamination.

Features

- 100% polyethylene - no rust or corrosion
- Removeable non-skid grate
- Modular – easily clips together with extra Spill Decks

Specifications

- Max load: 1,360kgs
- Sump capacity: 83L
- Weight: 20kgs
- Dimensions: 146 x 1,320 x 660mm (h,w,d)
