

Specification Sheet

Spill Deck Ramp

Product Code: 01-1081

Product Features

Controlco Spill Decks are an essential piece of kit - contributing to making everywhere from the automotive industry to light manufacturing safer and better places to work.

The Controlco Spill Deck Ramp is an integral part of the system, making loading and unloading drums onto Spill Decks easy by guiding the load, and preventing slips and trips.

Durable and chemical resistant, the ramp is made of 100% polyethylene so it's rust-free and corrosion-free.

Features

- 100% polyethylene - no rust or corrosion
- Durable
- Chemical resistant

Specifications

- Max load: 272kgs
- Weight: 8kgs
- Dimensions: 146 x 886 x 632mm (h,w,d)
