

Specification Sheet

Flexi Bund - Alloy Stripping

Product Code: 02-1014

Product Features

Designed to secure Controlco Flexi Bund in heavier traffic areas. This specialist system helps prevent the bund from shifting, maintains the bund system's integrity, and protects the workplace and the environment from accidental spills or leaks.

Each metre of Alloy Stripping comes with seven nylon anchors.

Note: We recommend using an impact drill with a 6.5mm bit to pre-drill holes in the stripping and 30mm into the floor before inserting the anchor and either screwing, or tapping, the expansion nail home.

Features

- Easy to install
- Holds fast even in heavy use areas

Specifications

- Alloy Stripping is supplied with seven nylon floor anchors
