

Specification Sheet

Flammable Safety Can - 4L

Product Code: 04-2000

Product Features

The clever design of this Flammable Safety Can actively significantly reduces risk when transferring flammable liquids.

The single spout can has a sealed lid with automatic positive-pressure relief that vents between 0.2 and 0.35 bar to guard against rupture or explosion. In addition, a stainless steel flame arrester dissipates heat to stop flashback ignition.

The leakproof, high grade steel construction features a tough, chemical-resistant powder coat finish.

Also recommended; its bigger brother the Flammable Safety Shelf Can – 19L.

Features

- Guaranteed 100% leakproof construction
- High-grade coated steel
- Tough powder-coat finish resists chemicals and stands up to hard use

Specifications

- 4L capacity
