## Flammable Safety Shelf Can - 19L

Product Code: 04-2001

### Product Features

Relied on by lab professionals to safely dispense hazardous liquids into test tubes, small flasks and beakers, this shelf can is packed with protective and performance features.

Fill spouts have a self-close mechanism and pressure-relief caps for extra safety. While a vacuum-relief valve, within the lid, delivers smooth liquid flow, and self-closing faucets provide trouble-free dispensing. The mounting of the faucet (50mm above the bottom) means there's no need to lift the can from its position when in use.

In addition, a stainless steel flame arrester dissipates heat to stop flashback ignition.

### Features

- Guaranteed 100% leakproof construction
- Superior dispensing performance and precision
- Risk-minimising design
- Faucet mounted 50mm above the bottom means no need to lift the can to dispense

### Specifications

- 19L capacity
- Steel/brass faucet for durability
- Weight: 3.8kgs (empty)
- External Dimensions: 429mm (H) x 298mm (outer diameter)
