

Specification Sheet

Sump Pillow

Product Code: 08-1007

Product Features

Its product code ends in 007. A coincidence? We don't think so.

Suited for special operations, this uncompromising sump pillow pre-empts, and cleans up, any potentially costly and embarrassing messes caused by oil spilling into drains, sumps, tanks and boat bilges.

Easily deployed, and just as easily secured using a robust rope, these tubular pillows very efficiently absorb oil, leaving only clean water behind.

Risk, eliminated.

Features

- Handles up to, and including, the most viscous oils
- Reliable last line of defence or as a pre-emptive strike
- Purpose-designed for confined space performance

Specifications

- Tough mesh outer
- 2250mm rope-looped for securing to grates
- Absorbs up to 4L per pillow
- Dimensions: 130mm x 400mm
