

Specification Sheet

Sorbent Pillow - Chemical

Product Code: 09-1002

Product Features

This Sorbent Pillow will take on the harshest chemicals. And win.

The robust construction means it won't degrade or react, so it instantly de-escalates a potentially volatile situation. A brilliant performer in challenging conditions, it absorbs up to 4L of some of the nastiest liquids out there.

The high visibility yellow colour not only makes finding an appropriate response in a critical situation quick and easy for people on the work floor, it also instantly alerts others to a potential danger.

Features

- For all harsh liquids, including acids and corrosives
- Tough knitted outer for durability
