

Specification Sheet

Controlco Starter Spill Kit - Oil Only - 20L

Product Code: 13-1075

Product Features

This kit lets you soak-up oil or fuel from a spill while leaving all the water behind. (Clever huh?) You can probably see straight away how handy it'd be in a workshop or mucking around in boats. Or near rivers, streams, the sea or even drains - come to that. It's like a lifesaving device - but for fish and our environment.

Plus, because it only targets oil and fuel, you don't waste products just soaking-up water. So that saves you money too! It's compact, which is handy.

But if you need something that'll handle a bit more, check out the Controlco Starter Spill Kit – Oil Only – 50L | 13-1077.
