

Specification Sheet

Controlco Premium Spill Kit - Oil Only - 200L

Product Code: 13-1089

Product Features

No one wants to see another image of a seabird, its feathers coated with oil. Or fish floating belly-up in a New Zealand river. Businesses don't want that on their consciences. Nor do they want to suffer the impact of loss of reputation, costly fines, staff injuries, or the damage to property that oil, fuel and solvent spills can cause. Accidents do happen. With hydrocarbons, focussing on cure should be right up there with prevention.

Packed with leading edge absorbents, this kit is a state-of-the-art, hydrocarbon-selective response that helps keep people, waterways, aquatic life, and businesses safe from the impacts of spill harm.

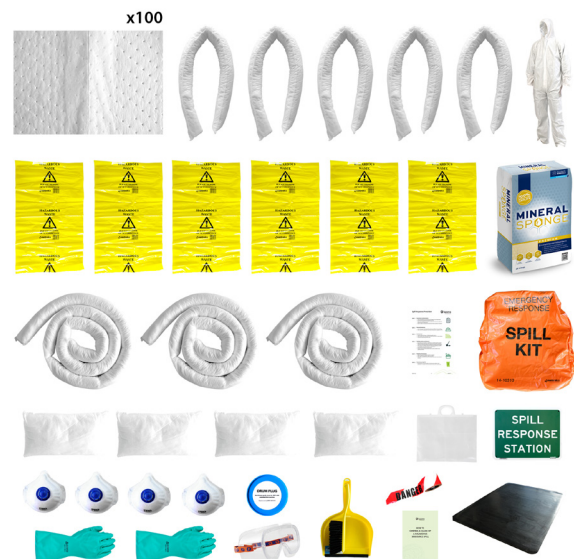

Recommended for all medium to large businesses carrying, storing, or transporting hydrocarbons; engineering, manufacturing, and industry.

Features

- For oils, fuels, and solvents– not water
- High grade absorbents
- Drum Plug stops leaks at the source
- Top-quality PPE gear, includes Protective Coveralls, carry case
- With Hazard Tape for effective spill area management
- Includes a Weather and Security Cover
