

Specification Sheet

Biohazard Spill Kit

Product Code: 13-2001

Product Features

Bodily fluids are part of being human. And cleaning up after bleeding noses, urine, and vomit are a part of life, especially when dealing with younger and more vulnerable people. It's important to be prepared to spare everyone's blushes and protect the health of individuals, staff and the public.

These bodily fluid clean-up kits are designed for early childhood care, schools, restaurants, medical centres, police stations and anywhere that urgent biohazard clean-ups are required. It's never going to be pleasant but this kit makes cleaning up easier, safer and more discrete.

A larger version of the Body Fluid Kit, it includes two clinical waste bags to keep everything tidy for disposal.

Single use only.
