## Hazardous Waste Bags

Product Code: 14-1006

### Product Features

A vital part of the clean-up of hazardous waste is safe containment ready for appropriate disposal. These specialist Controlco bags are designed to protect those responding to a spill, or hazardous goods event, and to keep the dangerous contents away from workers, the workplace and the environment.

Very heavy duty (60 mu), they are gusseted for ease of use, and added capacity. In bright yellow and clearly marked with hazard symbols.

These are integral to selected Controlco spill kits including the Biosecurity Spill Kit.

### Specifications
