

Specification Sheet

Weather and Security Cover - 100L

Product Code: 14-10300

Product Features

These spill kit covers are a brilliant solution to two issues. (OK, three.)

They protect spill kits from the weather, make them more visible in situations where an emergency response is needed, and stop over-zealous employees accidentally putting the wheeled bin kits out with the kerbside rubbish and recycling. (No kidding, that has actually happened.)

These covers will more than pay for themselves and are definitely a “must have” rather than a “nice to have”. In eye-catching orange, they’re what all the smart spill kits will be wearing.

Also available to fit 200L bins.

Features

- Provides easy recognition of spill kit locations
- Highly visible site safety reminder
- Reduces risk of accidental kit content disposal
- Snug-fitting, durable weather protection

Specifications

- UV-resistance PVC with fitted elasticised bottom
- Suitable for 100L spill kits (120L wheeled bins)
