## Portable Gravity Fed Eye Wash

Product Code: 18-1009

### Product Features

This handy, portable gravity operated eye wash has a 35 litre capacity. The high-density green polyethylene tank provides a full 15 minute flushing at 1.5 litres per minute. (The minimum optimal time for dealing with a contamination emergency.)

The fold-down eye wash arm has a positive upper-limit stop that covers and protects the spray outlets when not in use. A handle on top allows for easy use. The wide-fill opening, with threaded cap, enables easy inspection, cleaning, and filling.

It is supplied with wall bracket and bacteriostatic additive that means water can be stored for up to six months.

### Features

- Fold-down eyewash arm protects spray outlets when not in use
- Top handle for portability
- Wide-fill opening with threaded sealing cap for inspection, cleaning and filling
- Supplied with wall bracket
- With bacteriostatic additive preserving water for up to six months
