## Emergency Shower and Eye Wash Location Sign

Product Code: 18-1015

### Product Features

At least as important as an emergency exit sign, these signs guide workers suffering personal contamination to safety shower units, helping protect them from long-term harm.

The signs also provide a valuable reminder, not only of hazardous goods in the vicinity, but the best way to respond to irritants or other chemicals on the eyes, face, or body.

The more prominently these signs are displayed, the more likely people, including visitors to the workplace, will know how to respond appropriately.

### Specifications

- Dimensions: 600 x 450mm (h,w)
