

# Specification Sheet

## Drain Protector - Polyurethane - Large

Product Code: 22-1001

### Product Features

As a nation surrounded by water, protecting our storm water systems should be a priority. After all, Kiwi traditions including fish and chips, and whitebait fritters with a squeeze of lemon, from a tree you grew yourself, rely on our vigilance.

This drain protector provides an unbeatable seal against the harshest chemicals, when a spill occurs. Deployed ahead of the hazardous liquids, it is a barrier against contamination.

Reusable, its solid but flexible material is also reversible and environmentally safe. A recommended addition to any spill kit.

Storage case: 22-1018.

### Features

- Resistance to harsh chemicals
- Easy to deploy
- Flexible so it moulds to shape
- Reusable – if washed and repackaged

### Specifications

- 100% polyurethane
- Dimensions: 6 x 900 x 900mm (h,w,d)
