

Specification Sheet

Drain Warden

Product Code: 22-1009

Product Features

Drains are our last point of defence against silt and other undesirable products reaching our storm water systems. The Controlco Drain Warden stands in their way.

Made from a tough geotextile this simple, but highly effective, product prevents silt run-off and rubbish from entering the drain earning the thanks of fish and other aquatic life in our rivers and around our coastlines.

Easy to deploy and service, it is ideal as a short term collection device. Just cut to suit your drain size.

NOTE: Add a Sump Pillow to collect hydrocarbons.

Features

- Suits both round and square drains
- Overflow ports to prevent blocking
- Collects silt and sediment, allows clean water through

Specifications

- Tough geotextile
- Dimensions: 600 x 1,200 x 1,200mm (h,w,d)

Sump Pillow's can be used alongside a Drain Warden for added protection.
