

Specification Sheet

Modular Spill Pallet - IBC

Product Features

This robust, cleverly designed Hazero Modular Spill Pallet allows for all the variables.

It creates a fully scalable, bundled containment area that protects workers, workplaces, and our environment.

Flow through connectors or an unobtrusive expansion tank make achieving the sump capacity required seamless, and keeps the jobsite tidy and organised.

Assembly required.

Features

- Modular, and scalable, to suit changing needs
- Robust construction

Specifications

- 3 IBC Contains: 3 x pallets and 2 x tanks
- 4 IBC Contains: 4 x pallets and 1 x tank
