

Hazero Spill Tray - 20L

Product Code: 01-1032

Benefits

One of the most useful, labour-saving safety products a smaller workshop or light manufacturing company can own. (And, not surprisingly, many do!)

This durable secondary containment tray is made from 100% polyethylene so there's no risk of rust or corrosion. Fully bunded, lightweight and portable it stops little spills from becoming a big deal – making it ideal for cleaning-down parts, or as a base underneath frequently-used products to catch any drips.

At the end of the day, or when they're not needed, Hazero Spill Trays are easy to clean and stack away – saving space and keeping things tidy.

Features

- 100% polyethylene - no rust or corrosion
- Workshop-friendly design provides maximum value in minimum space
- Removable non-skid platform protects from bumps and keeps it where it's meant to be
- Easy clean sump. (We recommend using Hazero Sorbent Pads for the job.)
- Hazero Shield of Honour

Specifications

- Max load: 50kgs
- Sump capacity: 20L
- Weight: 3kgs
- Dimensions: 155 x 600 x 400mm (h,w,d)

The Hazero Shield of Honour is more powerful than a "lifetime guarantee".

It means our reputation is on the line not only when a product is sold, but every single time it is used.

If the product doesn't meet your expectations over the next 99 years, we or our descendants (we're a multi-generational company), will refund, replace, or repair it. Free of charge.

You don't need a receipt. Or even a reason. No questions asked.

Naturally, that's so long as you use your Hazero product as intended and in accordance with existing legislation.

Shield your people. Shield your business.
