

Specification sheet

Hazero Sorbent Sock - General Purpose - 1.2m

Product Code: 08-1002

Benefits

Absorbing both water and oils, and a staple of the essential General Purpose Hazero Spill Kits, these Sorbent Socks also have a lot to offer as a first line of spill defence in manufacturing and even the food industry.

Designed to fit snugly around bends and into corners, they're regularly deployed around machinery being worked on as a temporary bund and around chillers under repair to reduce slipping and cross contamination risks.

Flexible and light weight these Sorbent Socks are also handy for keeping the rainwater out of warehouses, and chemicals out of drains when used to stay ahead of spills when things get out of hand.

Check out the full range to decide which is best for the job at hand.
