

Specification sheet

Hazero Weather and Security Cover - 200L

Product Code: 14-10310

Benefits

These covers make sure everyone recognises spill kits for what they are – an emergency resource not rubbish bins! (Overzealous employees have been known to put spill kits out for kerbside collection, a mistake best avoided.)

The covers also protect spill kits from the weather and make them more visible in situations where an emergency response is needed. Fast.

These covers will more than pay for themselves and are definitely a “must have” rather than a “nice to have”. In eye-catching orange, they’re what all the smart spill kits will be wearing.

Also available to fit 120L Spill Kit bins.

Features

- Provides easy recognition of spill kit locations
- Highly visible site safety reminder
- Reduces risk of accidental kit content disposal
- Snug-fitting, durable weather protection

Specifications

- UV-resistance PVC with fitted elasticised bottom
- Suitable for 200L spill kits (240L wheeled bins)
