Hazero Drain Guard

Product Code: 22-1008

Benefits

The buck stops here. Along with metal filings, plastics, silt, and other things we don't want getting into our waterways.

The Hazero Drain Guard helps fish and other aquatic creatures live their best lives. The flexible, easy to use, geotextile is highly effective when it comes to preventing any rubbish in run-off reaching drains.

Just cut to suit the drain, as required, and remember to check it regularly to dispose of debris and check for damage.

NOTE: Adding a Hazero Sump Pillow to your drain protection allows you to collect hydrocarbons. The sump pillow will absorb oil and leave water behind.

Features

- Suits both round and square drains
- Overflow ports to prevent blockages
- Collects silt and sediment, allows clean water through

Specifications

- Tough geotextile
- Dimensions: 1,200 x 1,200mm (h,w)
- Holds up to 18kg of sediment

Hazero Sump Pillow (08-1007)
