Hazero IBC Spill Pallet Cover Double

Product Code: 01-1031

Benefits

Hazero IBC spill pallet covers are a very cost effective way to protect IBCs from the weather. They also help prevent the sump being inundated in the event of rain and then overflowing, creating a potential environmental hazard.

New Zealand-made and durable these “hi-vis jackets” for IBCs look professional and increase visibility on site – especially important where there is a lot of equipment and vehicle traffic.

Features

- Designed and made in New Zealand
- UV resistant PVC material

Specifications

- Dimensions: 1,500 x 2,700 x 1,730mm (h,w,d)

Hazero Spill Pallet – Double IBC (01-1026)
