

Specification sheet

New Pig Overpack - 200L

Product Code: 03-1000

Benefits

On those rare occasions when hazardous goods containers are compromised, this containment superstar comes in off the bench.

Capable of dealing with drums of up to 200L, the New Pig Overpack Drum 200L provides an extra, purpose-designed protective layer between hazardous goods and workers, the workplace, and the environment.

This isolates leaking drums, enabling them to be transported with 100% confidence, preventing contamination and any Health and Safety issues.

Meets US DOT and UN performance requirements.

Features

- Made in 100% UV protected polyethylene
- Designed for easy transfer of dangerous goods when containers are compromised
- Helps ensure compliance and site safety
- Twist down, half-turn lids

Specifications

- Storage capacity: 360L
- Weight: 21.8kgs
- Top diameter: 797mm
- Height: 1,054mm
