

New Pig Spill Berm

Product Code: 22-1007

Benefits

Washable, reusable and flexible, this handy spill berm provides fast protection when a spill is headed right for a drain - keeping potential contaminants out of the storm water system.

Designed to be deployed ahead of the spill it is an ideal temporary response that confines and diverts liquids for easy clean up or reclamation. Also recommended for sealing doorways during wash down.

NOTE: For temporary use only.

Features

- Washable and reusable
- Resists water, oils and a wide range of chemicals
- Easy to clean with soap and water
- A tacky underside provides a tight and reliable seal
